WHAT IS ULTRA AX

A proven virucidal/bactericidal disinfectant which is safe to use on all washable touch surfaces to include glass, aluminium, stainless steel, rubber, ceramic, plastic & tiles. See note below for cleaning real leather surfaces.

Virucidal activity against all enveloped viruses (including Coronavirus, Influenza virus, HIV) (Passes EN 14476:2013+A1:2015/prA2:2016).

Use after each client to maintain clean, hygienic & safe conditions.

HOW DO I USE ULTRA AX

Spray a fine mist onto the surface, paying attention to all possible touch points.

Leave to work for 60 seconds.

Wipe off any residue with a disposable paper wipe. Place in black bag for 72 hours before going to landfill

Do not dilute this product

Leather chairs – mix a few drops of a mild washing up liquid with water. Dampen a disposable wipe with the solution & wipe **all** surfaces of the seat. Leave to dry & dispose of the used wipe as above. Please note that Ultra AX could damage real leather surfaces.
