WHAT IS BIOGUARD?

A unique, fast acting, high performance disinfectant cleaner that is reliable and proven. Independently tested to the highest British and European Standards (EN1276, AFNOR, EN14476, EN12504, EN13727).

Non-hazardous, non-toxic and environmentally friendly. Alcohol free and neutral ph, so gentle on skin.

Used and trusted by the NHS and healthcare professionals.

HOW DO I USE BIOGUARD?

Dispenser pump press 2 x into a clean empty large disinfectant jar,
1 x into a medium or ½ x into a small OR

Use tap to fill the measuring glass fill to brim, pour 2 x into a large jar,
1 x into a medium or ½ into a small.

Top up with fresh clean cold water to the marker line.

Immerse implements into the solution for 2 minutes.

Remove from jar and dry using a paper wipe.
